

June 5, 2008

To Whom It May Concern:

Sinclair Dental has been a client of Keystone Cost Reduction since 2009. During this period we have reduced our waste handling costs by as much as 40%. Keystone has proven to be diligent in negotiating with our waste haulers and ensuring that any billing errors are corrected.

Keystone Cost Reduction has assisted Sinclair Dental in expanding our recycling program without incurring additional costs. Keystone has become our partner in managing our solid waste expenses and increasing the amount of waste that Sinclair diverts from the landfill. Sinclair Dental would recommend Keystone Cost Reduction to any company looking to reduce waste expenses while maximizing recycling opportunities.

Sincerely,

Amir Nowtash, CA  
Director of Finance  
Sinclair Dental
